

## **Scaletec BSB**

- NZ Trade Approved
- Stainless Steel construction
- Designed for food industry
- 304 Stainless Steel Cover and Pole
- Zemic OIML approved loadcells

### ■ **HYGIENE**

To minimize crevices and surfaces that harbor bacteria in food factories. Scale frame and base are a very open design and simple to hose through.

### ■ **STAINLESS STEEL**

Constructed from Stainless Steel designed for easy cleaning and maintenance.

### ■ **WATERPROOF**

The scale base electronics (loadcell and cable) are sealed IP67.

### ■ **HEAVY DUTY**

Designed for industrial use to survive in production line applications.

### ■ **VERY RELIABLE**

Simple open design incorporating a high performing sealed loadcell provides for a lifetime of reliable weighing.

### ■ **ACCURATE**

Approved for trade use in New Zealand. Approval N<sup>o</sup> 1999.

### ■ **VERSATILE**

This scale base may be coupled with an extensive range of scale instruments selected for your specific requirements.
